SAFETY

& INNOVATION

The technology behind Virus Power racing suits represents a revolution in the motorcycle industry. Made from patented MultiProtective composite material and certified with AAA approval (according to EN17092:2020 standards), Virus Power suits offer unique characteristics worldwide in terms of tear, abrasion, and cut resistance. They provide 10 to 12 times greater protection than the safety standards required by current regulations, without the need for additional reinforcements, ensuring unmatched comfort in terms of lightness, breathability, and fit.

Virus Power is a brand specializing in the production of suits for motorcyclists. It stands out for its revolutionary motorcycle product, made from eco-friendly, AAA-certified, and patented material.

WELCOME TO
THE NEW ERA
OF MOTORCYCLING
WHERE SAFETY,
PERFORMANCE, AND
SUSTAINABILITY MEET

#MYSKINWITHOUTLEATHER

The Virus Power motorcycle suit represents a leap forward not only for motorcyclists but also for our planet.

Crafted from high-quality, recyclable materials and completely free of animal-derived components, the Virus Power suit allows us to make a responsible choice in terms of safety, performance, and environmental sustainability.

ECO-FRIENDLY PRODUCTION
PROCESS

The Virus Power suit is a product that represents a tangible commitment to sustainability. From the use of recycled materials to responsible manufacturing, every aspect of the Virus Power suit is optimized to respect the planet.

RIDER SHELL

Sizes
44-58 Man

starting from
€ 239,00

DESCRIPTION The Rider Shell motorcycle jacket adapts to all scenarios, becoming part of your riding gear without standing out when you're off the bike. The jacket features removable protections on shoulders, elbows, and back, designed to make it safe without compromising on style and comfort.

ERGONOMICS Fully breathable and water-repellent, it includes rainproof coated zippers, two front pockets, one internal pocket, an integrated hood removable via zipper, and an adjustable drawstring hem.

MATERIALS The outer fabric is made of high-tenacity waterproof softshell with elasticated softshell inserts, a fixed perforated and breathable polyester lining, elasticated zones, reflective inserts on arms, and polyester knit cuffs.

PROTECTION It features CE EN 1621-1 Level 1/2 certified protections for shoulders and elbows, is back protector-ready, and includes internal reinforcements on shoulders and elbows.

The Rider Shell jacket combines safety, comfort, and discretion, adapting to any situation with removable protections and a design suitable even off the bike.

MADE IN ITALY

Virus Power relies on the strength and experience of Pri.Ma.Tex S.r.l., which since 1997, in the heart of Prato, Tuscany, has been creating cutting-edge technical fabrics. Each product is a proud example of Made in Italy, combining innovation, craftsmanship, and the renowned Tuscan textile tradition celebrated worldwide.

CUSTOMIZATION

The translation is already correct and conveys the intended meaning effectively. If you need any adjustments or formatting, feel free to let me know!

DETERMINED

TO WIN

Virus Power looks to the future of young riders and motorcycling. We will continue to innovate and deliver high-quality products to ensure every rider can compete at their best, in total safety.
